## | About NIOS

**The National Institute of Open Schooling (NIOS) is one of the three National Boards of Secondary Education and offers school education through Open and Distance Learning (ODL) mode.**

It is the largest open school in the world with largest number of courses available supported by print and electronic material. It has been vested with the authority to enrol, examine and certify learners up to pre-degree level. The Open Schooling courses of study of NIOS have the same standard and equivalence of the courses of study of other National / State level Boards of School Education. Learners have joined colleges and professional institutions after completing their studies from NIOS. NIOS develops its own curriculum, self learning material and media support programmes utilizing expertise of faculty from various Academic and Vocational Educational institutions / organizations. Open Schooling encourages flexibility and freedom to learn. Learners can learn at any time at their own pace and place.

## | NIOS – established by MHRD, Govt. of India

NIOS is "Open School" to cater to the needs of a heterogeneous group of learners up to pre-degree level. It was started as a project with in-built flexibilities by the **Central Board of Secondary Education (CBSE)** in 1979. In 1986, the National Policy on Education suggested strengthening of Open School System for extending open learning facilities in a phased manner at secondary level all over the country as an independent system with its own curriculum and examination leading to certification.

**Consequently, the Ministry of Human Resource Development (MHRD)**, Government of India set up the National Open School (NOS) in November 1989. The pilot project of CBSE on Open School was amalgamated with NOS. Through a Resolution (No. F.5-24/90 Sch.3 dated 14 September 1990 published in the Gazette of India on 20 October 1990), the National Open School (NOS) was vested with the authority to register, examine and certify students registered with it up to pre-degree level courses. In July 2002, the Ministry of Human Resource Development amended the nomenclature of the organization from the National Open School (NOS) to the National Institute of Open Schooling (NIOS).

## What does NIOS offer?

The National Institute of Open Schooling (NIOS) provides opportunities to interested learners by making available the following Courses/Programmes of Study through open and distance learning (ODL) mode.

- Open Basic Education (OBE) Programme for adolescents and adults at A, B and C levels that are equivalent to classes III, V and VIII of the formal school system.
- Secondary Education Course
- Senior Secondary Education Course
- Vocational Education Courses/Programmes
- Life Enrichment Programmes

## How does NIOS Function?

NIOS operates through a network of five Departments, Regional Centres and Accredited Institutions (Study Centres) in India and abroad. It has a current enrolment of about 2.71 million students at Secondary, Senior Secondary & Vocational levels which makes it the largest open schooling system in the world.

### Current Student at CNAQ, Qatar

It was wonderful experience for my daughter and me as her parent to be a part of IEC. I liked the environment of your Education Center, the teaching methodology, which helped her achieve the educational enrichment, in a very brief period of her association with your Educational center. My daughter has been so lucky to have such a supportive environment now she is doing her Business Management Accounting in CNAQ Qatar.

# I Benefits for Learners in NIOS:

## 01 | Flexibility:

The NIOS provides flexibility with respect to :

- Choice of Subjects : Learner can choose subjects of his/her choice from the given list keeping in view the passing criteria.
- Admission: Learner can take admission Online under various streams or through Study Centre, Facilitation Centre, Regional Centre for the Secondary and the Senior Secondary Education Courses.
- Examination : The Public Examinations are held twice in a year. Nine examination chances are offered to a learner in five years. A learner can take any examination during this period as and when he/she is well prepared and can avail the facility of credit accumulation.
- On Demand Examination : A learner can also appear under the On-Demand Examination System (ODES) of NIOS at the Secondary and the Senior Secondary levels at the NIOS Headquarter, NOIDA at the Regional Centres of NIOS, and at 43 Kendriya Vidyalayas across India. A learner is eligible for On Demand Examination after first public examination

## 02 | Relevance:

The NIOS courses and programmes are functional and also set pathway for further studies. Successful alumni of NIOS are pursuing higher studies in institutions of international and national repute like IITs, AIIMS, the Delhi University, the Jamia Millia Islamia, the Aligarh Muslim University, the Punjab University, the Allahabad University, many other reputed institutions of higher learning and in professional institutions and universities abroad. Also, NIOS completed students can seek admission in all India as well as state Medical, Engineering and other various competitive exams like IIT-JEE, NEET - UG, CA - CPT, CS, ICWA. They can also seek the government jobs whether central / state government. However other eligibility criteria like age, particular subjects, qualifying percentage and other criteria must be fulfilled by the students.

## I Benefits for Learners in NIOS:

### 03 | Transfer of Credits:

NIOS acknowledges previous knowledge by allowing transfer of credits of up to two subjects passed from International, National and State Boards of Examination / State Open Schools with whom NIOS has entered into agreements.

### 04 | Recognised Quality Education:

The NIOS takes conscious steps to provide quality education. The Govt. of India has vested in NIOS the authority to conduct Public Examinations and provide Secondary and Senior Secondary level certificates, which are equivalent to the certificates provided by any other Board of School Education.

This is because all the Boards, whether National or State, are following the National Curriculum Framework brought out by the **National Council of Educational Research and Training (NCERT)**. NIOS is one of the three National Boards; the other two Boards are :

- (i) The Central Board of Secondary Education (**CBSE**) and
- (ii) The Council for Indian School Certificate Examination (**CISCE**)

## Testimonials from Parents

I was relocated with family from Saudi Arabia to Qatar in 2018. When it came to my child's admission to grade 12, I realized how hard it is and getting into a school was impossible. IEC was introduced to me by my colleague who experienced similar situation in previous year. Through IEC, the NIOS registration process was smooth and their batch wise classes by qualified teachers provided a school like feel to my child.

**Samra Hameed (2018)**

IEC has been providing quality education with special focus for students who prefer to write the NIOS board. Their faculty are well aware of the requirements of NIOS and therefore they provide systematic classes. Their classes in the morning hours are a significant advantage as students get ample time in the evening for their activities.

**Pranav Rajesh (2018)**

My daughter had to drop out of school when she was in class XI, as she was suffering from some health issue. I was worried about her studies and searching for another alternative. My friends suggested NIOS stream, delighted to know about the flexibility of the system in which my daughter can finish her class XII without wasting a year and go to further under graduate studies.

**Ooha Wegeasna (2018)**

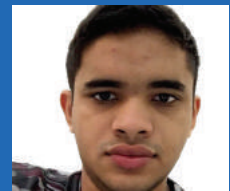

My son could not score very well in class-X examinations but he wanted to follow Science stream in higher classes. His previous school provided him admission in Commerce only but he realized his interest was in studying science. He discontinued his course in commerce to join Science course of the NIOS. IEC guided us to register at the NIOS and now he is happily pursuing his ambitions at IEC. Well experienced faculties at IEC enlighten him to achieve his goals!

**Gurpratab (2018)**

It was hard to realize that our son was unable to follow most topics from Maths/Science. Always he used to get low marks in those subjects and finally got detained in grade 9. Whilst we started to enquire about NIOS possibility in Qatar, heard about IEC, Bu-hamour. IEC provided easy subjects like Home science, Data Entry, Business, etc which he could handle easily. The teachers and atmosphere in IEC is much appreciable and enhance our kid's confidence and a lit for hope in higher studies. Thank You IEC

**Joshua Kurian(2017)**

My child is a slow learner and she was unable to cope with theoretical subject social science and science along with math during his class 9. Her previous school principal suggested NIOS curriculum under which one can complete grade 10 with preferred subjects. Through this flexibility in subject selection and coaching from IEC my child passed grade 10 and now she is going to attend grade 12 annual examinations in this April 2019.

**Fareha Sheikh (2017)**

Joining for B. Arch. Graduation was my child's aim when she was in 8th grade. Unfortunately she was not allotted the science stream for grade 11 by school authority. We were in search of possibilities to study grade 12 Science stream. We came to know about IEC and NIOS from some of her school teachers and joined them for NIOS senior secondary. My child thankfully remembers all her teachers at IEC who provided excellent coaching in science subjects and she didn't feel any difficulty to cope with any subjects. In NIOS system there is flexibility in attending exams; one can appear for 3 subjects in first appearance and the rest after a six months period.

**Rana Ferhad (2018)**

I was moved to Qatar with my parents in last year and couldn't join for grade 10 in any school since there was an issue with residency permit. Fortunately my studies were not affected as I identified IEC at the earliest and the classes provided by them and proper guidelines on NIOS registration process was really helpful.

**Hisham Mohd (2016)**

## How NIOS become choice of learners residing in Qatar ?

- Examination centre in Qatar
- Exam centre can be changed from Qatar to India at any time
- Eligible for higher education in India or abroad on successful completion
- High pass rate

## NIOS – an ideal choice in following situations :

- Couldn't seek admission in school
- Couldn't attend regular classes at school for any reason
- The desired subject streams are not allotted at school
- Those who plan to leave Qatar in coming years
- The school drop-outs for any reason
- Grade XI / IX detained students

## At IEC, our previous batches have secured 100% pass rate. We offer,

- Classes by qualified faculty who make the students capable to write the exam with confidence.
- Practical sessions for subjects with practical examination.
- Regular day classes.
- Subject stream wise batches.
- Assistance in TMA assignment completion and registration process.
- Our premises are equipped with excellent study facilities.
